

Providing Next Generation Dental Care Products for Nearly 25 Years

Oxyfresh has been formulating and delivering the highest quality ingredients in oral care products since 1984.

While consumers are bombarded with colorful and alcohol-laden mouthrinses, along with highly abrasive toothpastes that line store shelves, Oxyfresh has been diligent in redefining oral health care that does not succumb to the pressures of hyped commercial brands.

Oxyfresh products contain:

- NO alcohol
- NO saccharin
- NO aspartame
- NO colors or dyes
- NO harsh abrasives
- NO artificial flavors

The absence of these unnecessary ingredients provides you with peace of mind that Oxyfresh dental products are safe and will preserve your most precious cosmetic and hygiene services. Oxyfresh products are formulated using unique ingredients, combined with proprietary and patented formulas.

These premium products provide a proven breath management system that also complements any long-

term periodontal maintenance regime. Oxyfresh is one complete system that you can customize and tailor to any patient's needs.

Additionally, Oxyfresh demonstrates its unwavering commitment to cutting-edge quality by ensuring their toothpastes are low in abrasion and every mouthrinse maintains a neutral pH.

No hype or empty promises — Oxyfresh products are all backed by a 100% money-back, satisfaction guarantee.

Imagine providing your patients with a home care system that does all this PLUS contains soothing and powerful ingredients such as:

- Aloe
- Zinc
- Xylitol
- Chamomile
- Essential oils

Clearly the confidence you're looking for in recommending a home care system you can believe in!

That's the Oxyfresh difference!
